

FNP

Axel Kufus | 1989

www.moormann.de

Viel Inhalt, wenig Regal. Regalseiten und Tablare werden lediglich im Verbund mit Aluminium-Schienen stabilisiert, wodurch die Transparenz des Entwurfs in den Vordergrund rückt. Dank der einfachen wie intelligenten Konstruktion kann das FNP Regalsystem an nahezu jede räumliche Gegebenheit angepasst werden. Auch im Nachhinein ist es jederzeit erweiter - und wandelbar.

FNP Regalsystem-Varianten:

FNP X - FNP mit kleineren Fächern (in Höhe, Breite, Tiefe)

FNP X12 - FNP X in Materialstärke 12 mm

FNP Archivregal - FNP in doppelter Tiefe, beidseitig nutzbar, freistehend

A lot of content, little shelf. Side panels and shelf boards are stabilised solely in conjunction with aluminium rails, which place the transparency of the design in the foreground. The simple and intelligent design makes it possible to adapt the FNP shelf system to nearly all room situations. It can be extended and altered even at a later date.

FNP shelf system-versions:

FNP X - FNP with smaller compartments (in height, width, depth)

FNP X12 - FNP X of material thickness 12 mm

FNP Archive - FNP with doubled depth, accessible of both sides, freestanding

Auszeichnungen/awards:

- | Auszeichnung für hohe Designqualität, Design Zentrum Nordrhein-Westfalen 1991
- | Internationales Designjahrbuch 92/93
- | md Auswahl die Besten 200 für das Jahr 2000
- | interior innovation award cologne 2003, Kategorie Classic Innovation
- | iF Product Design Award 2001 (FNP X)

FNP Leuchten/lightings**FNP LED Tablar/LED board**

Mit dem FNP LED Tablar können Sie Ihre Lieblingsstücke gekonnt in Szene setzen. Eine „Lichtleiste“ im vorderen Bereich des jeweiligen FNP Tablars sorgt für Akzente in Ihrem FNP Regalsystem und leuchtet in einem warm-weißen Ton das entsprechende Fach aus.

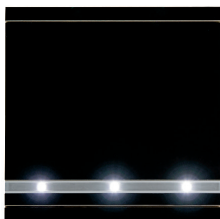

The FNP LED board enables you to show off your favourite pieces. A light strip at the front of each FNP board shines in a warm white tone into an appropriate FNP compartment. Hence, it creates a great effect in your shelving system.

FNP Schiebetür magnetisch/sliding door magnetic

Die FNP Schiebetür kann auch nachträglich an das FNP und FNP Archiv Regalsystem angebracht werden.

Sie ist in zwei Ausführungen erhältlich: in opakem Acrylglas oder als Magnethaftplatte. Die magnetische Schiebetür ist wendbar; ihre schwarze Oberfläche ist mit Kreide beschriftbar, die weiße Oberfläche dient als Projektionsfläche.

Die FNP Schiebetür läuft auf Rollen in einer Führungsschiene, an deren Enden Stopper angebracht sind. Die Führungsschiene ist in beliebiger Länge erhältlich.

The sliding door can be added to FNP and FNP archiv shelf system at any time.

It is available in two versions: opaque plexiglass or double-sided board. The double-sided board is magnetic; one side is a black chalk board, the other is white and can be used as a projection screen.

The sliding door glides on wheels in the guiding rail, with stoppers at both ends. The guiding rail is available in any length.
